

NO NEED TO BE DESPERATE

Whilst sitting on this bus you are probably not thinking about needing the toilet ...

... but just imagine what it's like for the bus driver - unable to go because of a complete lack of available toilet facilities!

Holding on can become a desperate situation, and is potentially damaging to health. The Workers of England Union is campaigning for the appropriate amount of toilet facilities to be available on all bus routes.

We would all agree that when nature calls having access to toilet facilities becomes a priority and a worker should be confident that there is one available when needed.

A lack of toilet facilities for Bus Drivers is just not acceptable.
